Pathfinder Aim

The Advent Message To All The World In My Generation.

Pathfinder Motto

"The Love of Christ Constrains Me"

Pathfinder Pledge

By the grace of God,
I will be pure,
I will be kind,
I will be true
I will keep the Pathfinder Law
I will be a servant of God
I will be a friend of man

Meaning of the pledge:

By the grace of God.

Only as we rely on God to help us can we do His will.

I will be pure

I will fill my mind with everything that is right and true and spend time in activities that will build a strong, clean character.

I will be kind

I will not only be considerate and kind to my fellow men, but also to all of God's creation.

I will be true

I will be honest and upright in study, work, and play; and can always be counted upon to do my very best.

I will keep the Pathfinder Law

I will seek to understand the meaning of the Law and will strive to live up to its spirit, realizing that obedience to law is essential in any organization.

I will be a servant of God

I will pledge myself to serve God first, last, and best in everything I am called upon to be or do.

I will be a friend to man

I will live to bless others and do unto them as I would have them do unto me.

Pathfinder Law

The Pathfinder Law is for me to:

Keep the morning watch
Do my honest part
Care for my body
Keep a level eye
Be courteous and obedient
Walk softly in the sanctuary
Keep a song in my heart
Go on God's errands

Meaning of the Law:

Keep the Morning Watch.

I will have prayer and personal Bible Study each day.

Do my honest part.

By the power of God, I will help others and do my duty and my honest share wherever may be.

Care for my body.

I will be temperate in all things and strive to reach a high standard of physical fitness.

Keep a level eye.

I will not lie, cheat, or deceive and will despise dirty talk or evil thinking.

Be courteous and obedient.

I will be kind and thoughtful of others, reflecting the love of Jesus in all my association with others.

Walk softly in the sanctuary.

In any devotional exercise I will be quiet, prayerful, and reverent.

Keep a song in my heart.

I will be cheerful and happy and let the influence of my life be as sunshine to others.

Go on God's errands.

I will always be ready to share my faith and go about doing good as did Jesus.

Spiritual Discovery

The purpose of this section is to renew and develop the teenagers' confidence in the Bible as the Word of God, and to help them discover a saving relationship in Jesus, leading to a decision of commitment and baptism.

1. Discover in group discussion:

- a. What Christianity is
- b. What are the marks of a true disciple. (Matthew 6:19-34; Luke 14:26-33.)
- c. The forces involved in becoming a Christian.

You will need a **BIBLE** for this requirement.

Write down your thoughts on the above questions:

You will need to insert additional sheets for this requirement.

Discuss the following questions:

1. What does the parable say about:
 - a. What God is like? (1 John 1:5-10; 4: 11-17)
 - b. What I am like? (Rom. 3:9-20)
 - c. What the GOOD NEWS about God is? (Mark 1:14,15; Eph.1:13; 2 Cor. 4, Eph. 3:6-8)
 - d. How God deals with me? (Rom. 3:21-27)
 - e. How we walk with God? (I Peter 4:1-3, Col. 3:7-17)

2. Define what Christianity is, and what it offers you personally.

God Leads a Pretty Sheltered Life (Anonymous)

At the end of time, billions of people were scattered on a great plain before God's throne. Some of the groups near the front talked heatedly - not with cringing shame, but with belligerence.

"How can God judge us? How can He know about suffering?" snapped a joking brunette. She jerked back a sleeve to reveal a tattooed number from a Nazi concentration camp. "We endured terror, beatings, torture, death!"

In another group, a black man lowered his collar. "What about this?" he demanded, showing an ugly rope burn. "Lynched for no crime but being black! We have suffocated in slave ships, been wrenched from loved ones, toiled till only death gave release."

Far out across the plain were hundreds of such groups. Each had a complaint against God for the evil and suffering He permitted in His world. How lucky God was to live in heaven where all was sweetness and light, where there was no weeping, no fear, no hunger, no hatred. Indeed, what did God know about what man had been forced to endure in this world? "After all, God leads a pretty sheltered life," they said.

So each group sent out a leader, chosen because he had suffered the most. There was a Jewish person, a black person, an untouchable from India, an illegitimate, a person from Hiroshima, and one from a Siberian slave camp. In the center of the plain they consulted with each other. At last they were ready to present their case. It was rather simple: Before God would be qualified to be their judge; He must endure what they had endured. Their decision was that God "should be sentenced to live on earth-as a man!" But, because He was God, they set certain safeguards to be sure He could not use His divine powers to help Himself.

Let Him be born a Jew.

Let the legitimacy of His birth be doubted, so that none will know who His father really is.

Let Him champion a cause so just, but so radical, that it brings down upon Him the hate, condemnation, and elimination efforts of every major traditional and established religious authority.

Let Him try to describe what no man has ever seen, tasted, heard, or smelled – let Him try to communicate God to men.

Let Him be betrayed by His dearest friends.

Let Him be indicted on false charges, tried before a prejudiced jury, and convicted by a cowardly judge.

Let Him see what it is to be terribly alone and completely abandoned by every living thing. Let Him be tortured, and let Him die! Let Him die the most humiliating death - with common thieves.

As each leader announced his portion of the sentence, loud mummers of approval went up from the great throng of people. When the last had finished pronouncing sentence, there was a long silence. No one uttered another word. No one moved. For suddenly all knew...God had already served His sentence.

After reading the short story "God Leads A Pretty Sheltered Life," record your conclusions below on how much God really cares for us and is prepared to give all to save us.

Rangers following the DofE Curriculum can meet these requirements. These can also be met at the annual Camporee.

3. Pass a test in Ranger first aid.

Ranger First Aid Notes

Electrical Shock

Turn off the current if possible, but always disconnect the victim from the contact using a dry stick or coat or other non-conductive material. Do not use unprotected hands or feet. It is no use having two casualties. If the victim has stopped breathing, begin CPR and check the carotid pulse. Remember your A,B,C,D, procedure. If the victim's heart has stopped and you have been trained in external cardiac compression, continue cardio-pulmonary resuscitation. All electrical burns are more severe than they first appear. Even if the victim recovers it is essential that they seek medical advice.

Poisoning

Poisons may be solid, liquid, or gases.

They may be:

- ❖ Taken by mouth
- ❖ Inhaled through the nose
- ❖ Absorbed through the skin, or injected.

Calmness-not panic-is the essential in the treatment of poisoning. As prevention is better than cure, make sure all poisons are correctly labeled and stored out of reach of children. Never leave poisonous substances in an open container.

General Rules for Treatment of Poisoning:

1. Protect yourself from being overcome by the poison.
2. Remove the victim from the danger source.
3. Wash off any poison from the skin.
4. Arrange for medical aid.
5. Dilute, eliminate, or neutralize the poison.
6. **DO NOT**. . . Give fluids if the victim is unconscious.
7. **DO NOT**. . . Give an emetic if the poison is a corrosive.
8. **DO** Give samples of the poison or vomit to the doctor.

COMMON POISONS		
Kerosene, Petrol, Turpentine	No EMETIC	Plenty of milk
Acids	No EMETIC	Milk or water and beaten egg whites
Alkalis	No EMETIC	Lemon juice, egg whites
Beach or Phenol	No EMETIC	Milk. beaten egg whites
Alcohol, Insecticides, Match Heads, Tablets	GIVE AN EMETIC	

REMEMBER: If the poison is a corrosive (Burns on way down) DO NOT GIVE AN EMETIC. If in doubt, then give plenty of milk.

EMETIC: Use Syrup of Ipecac from your first aid kit. In all cases. seek medical aid. If breathing fails. begin CPR (Mouth to Mouth).

- ⚡ Wash the affected area with soap and water. Take a shower if possible.
- ⚡ Discard the clothes.
 - Get patient to drink plenty of water or milk.
 - Induce vomiting if a chemical has been swallowed.
 - If breathing stops begin CPR.
 - Quickly remove the patient to fresh air.
 - Indicated by abdominal pains. vomiting and diarrhea.
 - Give nothing by mouth.
 - Seek medical help.

Fits

Epileptic fits are not uncommon. The victim may utter a sigh or cry, fall to the ground, remain rigid for sometime, then begin thrashing around. It is possible they may froth at the mouth and become cyanosed. It is not unusual for the patient to be

incontinent. Protect the victim from danger, but do not restrict movements. If the opportunity arises, place something soft between the teeth. If the patient becomes limp, place in the recovery position. Seek medical aid. Do not awaken if they fall asleep.

Convulsions

These usually occur in young children, and may be caused by a digestive upset, teething, high temperature, or constipation. The child may arch his back, twitch his limbs, roll the eyes and even become cyanosed.

Loosen the clothing, ensure a clear airway, reduce the temperature by sponging the child, and seek medical aid.

Foreign Body in Eye

Do not rub the eye. Rinse with a gentle stream of tap water into the inner corner of the eye. Eye baths should be clean. If an assistant can see the foreign body, moisten a wisp of cotton wool or the corner of a clean handkerchief and gently lift the foreign body away from the surface of the eye. If the foreign body is on the window of the eye (pupil) or stuck to the surface of the eye, or is known to be a sharp object, medical help should be sought urgently. Chemical burns- wash with water immediately and seek medical help urgently.

Foreign Body in Nose and Ears

Foreign bodies in the ear or nose should be removed by a doctor.

Fractures

Fractures can be caused by direct action (such as a blow or a fall), indirect action (where the break occurs away from the site of the direct blow) or muscular action (where the kneecap or thigh may break due to a jerk or a trip). Fractures will be recognized by pain or discomfort in the region affected, swelling, loss of power of the limb, deformity, irregularity of the bone, unnatural movement and a bony grating which the injured person may feel. The last two signs should never be sought deliberately. Fractures are classified as closed when the skin surface is not broken, open when a wound is present, and complicated when a fracture, either closed or open, is associated with an injury to a more important part of the body such as the brain, lungs, a major blood vessel or nerve, the treatment of which has priority.

If in doubt, treat injury as a fracture and unless life is endangered by fire, rising water or other hazards, **DO NOT MOVE** the patient before treating his injuries and immobilizing any fracture. In all cases of fracture there is a danger that further injury may be caused if a limb or part is moved before being immobilized.

Immobilizing can be achieved by supporting the injured limb or part in as natural a position as possible with bandages, slings and padding.

Fractured Collarbone (clavicle):

In the case of a fractured collarbone the patient will often support the elbow to relieve pain and incline his head towards the injured side. A common cause is

fingers point toward the apex.

- ∴ Bring the apex over the back of the hand.
- ∴ Fold the extra cloth in neatly.
- ∴ Tie the ends on the outside of the wrist.

Open-foot Bandage:

This is similar to the open-hand bandage.

- ∴ Place the foot on the bandage so that the heel is toward the base and the toes point toward the apex.
- ∴ Bring the apex up over the top of the foot.

Collar and Cuff Sling:

- ∴ Place the forearm across the chest with the fingers pointing towards the opposite shoulder.
- ∴ Pass a clove hitch over the hand and round the wrist, the knot of the clove hitch on the thumb side of the wrist, and a fold of the cuff on either side of the wrist.
- ∴ Tie the ends of the bandage in the hollow just above the collarbone on either side.
- ∴ Check the circulation.
- ∴ This sling supports the wrist.
- ∴ If the shoulder is injured also, bring the lower end of the bandage up over the forearm and under the shoulder of the injured side and tie the two ends with a knot. Thus all the weight of the injured arm will be borne by the uninjured shoulder.
- ∴ You should be able to apply a sling with the injured person lying down.
- ∴ Place one end of a triangular bandage over the shoulder of the injured side.
- ∴ Let the bandage hang down over the chest with the apex level with the elbow of the injured arm.
- ∴ Bend the elbow of the injured arm, bringing the forearm in front of the bandage, with the hand elevated about four inches above the elbow and the tips of the fingers extending just beyond the base of the bandage.
- ∴ Bring the lower end of the bandage up over the forearm and over the shoulder of the injured side, and tie the two ends at the side of the neck.
- ∴ Bring the apex of the bandage forward and fasten with a safety pin.

Chest or Back Bandage:

- ❖ Place a triangular bandage against the chest (or back) so that the apex is at the shoulder.
- ❖ Have the patient hold the apex there.
- ❖ Now fold the base inward as far up as you desire.
- ❖ Carry the ends around the body and tie directly below the shoulder. You will always have one protruding long end after you tie.
- ❖ Take this end and bring it up to the shoulder, tying it and the apex of the bandage together.

Splint to the Forearm:

- ❖ Don't twist or turn the arm to see whether it is broken.
- ❖ It is best to use two splints. One should extend from the elbow to the fingers on the palm side, and the other should be placed on the opposite side.
- ❖ Fold several triangular bandages into cravat shape and use them to bind the splints snugly in place. Three or four are usually best, though two will do well.
- ❖ If material is available, the splints should be padded before being used.
- ❖ After the splint is applied, put on an arm sling to support the arm.

Splint to the Palm or Wrist:

- ❖ In case of a palm or wrist injury, one splint is sufficient. It should be padded and should extend from the elbow to the finger tips.
- ❖ Place it on the palm side and bandage securely in place.
- ❖ Then put on an arm sling.

Method of Testing

The instructor will give the examination.

Ranger first aid does NOT complete the First Aid Honour, nor is the certificate awarded.

If one chooses to complete the current St. John or Red Cross First Aid Certificate,
then this will meet the requirements for Ranger, Voyager and Guide.

Lifestyle Enrichment

1. Complete one honour not previously earned in Outreach Ministry, Vocational, or Outdoor Industries.
